### CAREER OBJECTIVE

Passionate about technology and creativity, I strive to build innovative digital solutions as a full-stack developer. With over 4 years of experience in web and WordPress development and a background in computer science, I bring both technical skill and a creative mindset. I'm eager to grow, collaborate, and make a meaningful impact through problem-solving, user-centered design, and dedication.

### PROJECT

- |                                                  |                           |
|--------------------------------------------------|---------------------------|
| 1. Discord Server Joining Website                | <a href="#">Live Link</a> |
| 2. Jokercoin Project                             | <a href="#">Live Link</a> |
| 3. CNAM - WordPress Multi-language functionality | <a href="#">Live Link</a> |
| 4. Minecraft Store - Endlessodyssey              | <a href="#">Live Link</a> |

### WORK EXPERIENCE

|                               |                                            |
|-------------------------------|--------------------------------------------|
